When you move over to Scout Tracking, you will then have the ability to add show and sell to his account and other sales to his account.

Note, the Show and sell, Reorder (9/17/18) and October Reorder can be added as long as you have an order for those items.

This will be used to check on your unit's prize order. You can also enter your unit's youth individual take order sheet. This will allow you to automatically compile a take order for your unit (note you will still have to submit it) but will take some of the math work out of the equation.
